

ALLWEILER | NORWAY

EMERGENCY STOCK PUMPS DELIVERY

Launch: December 2023

REDUCE YOUR DOWNTIME. NO COMPROMISES. BARE SHAFT PUMPS WITHIN 2 BUSINESS DAYS

Get ready for quicker and more reliable solutions with our new emergency stock of bare shaft pumps in Norway. These pumps are specifically designed for the marine industry and can be prepared for delivery within **two business days***. Keeping your operations up and running with minimal downtime.

What you can expect:

Wide Range

We will commence with **36 of the most commonly used pump types** from ALLWEILER, HOUGHTUIN and IMO. This includes centrifugal, twin-screw and three-screw pumps.

Fast Delivery

We promise to prepare your order for delivery **within two business days, reducing downtime** and allowing you to resume your operations quickly.

Quality Assurance

Our pumps are made to the **best quality standards**, providing performance in even the most demanding situations. They can be provided with DNV or Bureau Veritas certification.**

Individual Solutions

We know your hydraulic needs are unique. Our skilled teams are pleased to **adjust the pump to fit seamlessly into your system**.

**To ensure your custom made hydraulics, the certification and fastest delivery, an expediting fee of 30% will be added.*

***Further certifications on request*

ALLWEILER NB Centrifugal Pumps

Main Applications

General service, firefighting, bilge, ballast, cooling water, hydrophore, drinking water and sea water

PERFORMANCE DATA

Capacity:	≤ 480 m ³ /h
Delivery Head:	≤ 145 m
Discharge Pressure:	≤ 16 bar
Fluid Temperature:	≤ 140 °C
Delivery Flange:	25 - 150mm

ALLWEILER TRILUB Three-Screw Pumps

Main Applications

Pumping and circulation of lubricating oils

PERFORMANCE DATA

Capacity:	11 - 7,500 l/min
Discharge Pressure:	≤ 16 bar
Viscosity:	2 - 1,500 mm ² /s
Fluid Temperature:	≤ 80 °C

IMO Low Pressure ACG Three-Screw Pumps

Main Applications

LO circulation, LO transfer, crosshead LO, HFO/MDO feeder for separator, HFO transfer, HFO/ MDO preliminary pressure, HFO/MDO circulation

PERFORMANCE DATA

Capacity:	4,8 - 72 m ³ /h
Discharge Pressure:	≤ 16 bar
Viscosity:	1,4 - 3,500 mm ² /s
Fluid Temperature:	≤ 155 °C

IMO Low Pressure ACE Three-Screw Pumps

Main Applications

LO circulation, stern tube LO, LO purifier feed, HFO/ MDO preliminary pressure, HFO/MDO, circulation, HFO/MDO feeder for separator

PERFORMANCE DATA

Capacity:	0,6 - 10,8 m ³ /h
Discharge Pressure:	≤ 16 bar
Viscosity:	1,4 - 3,500 mm ² /s
Fluid Temperature:	≤ 155 °C

HOUGHTUIN LO 216.10 Twin-Screw Pumps

Main Applications

Bilge, ballast, lube oil, cooling water, fire fighting

PERFORMANCE DATA

Capacity:	10 - 1.100 m ³ /h
Discharge Pressure:	≤ 16 bar
Viscosity:	20 - 760 mm ²
Fluid Temperature:	≤ 80 °C
