

SIMPLY BETTER SYSTEMS:

Your first choice for 2K, 3K and more... Adhesives, Sealants and Foam dispensing/dosing pump systems.

The foam and adhesives industry relies heavily on precision and efficiency, and CIRCOR'S ZENITH PRECISION GEAR METERING PUMPS are engineered to deliver just that. No one has more experience or material options for dispensing/dosing sealants and adhesives than Zenith.

Single motor 4K

Seal-Less Mag Drive

2K Series Stainless Steel
B9000MD Series for Mixing
Isocyanates and Polyols

Single Motor 2K
(available up to 12K)

Achieve Unmatched Precision with Zenith Metering Pump Systems

For precise and reliable sealant and adhesive metering, Zenith's advanced dispensing/dosing pump systems deliver exceptional accuracy across a wide range of applications. Whether it's adhesives, sealants, potting compounds, or sealing foams, our technology ensures precise metering, mixing, and application for impeccable results.

Our diverse range of systems, including Series B, Series 9000, Series 9000MD, Spin Finish, and H Series, caters to dispensing/dosing applications. Each system is meticulously tailored to meet your specific requirements, guaranteeing reliability and precision at every step.

Tailor Zenith's advanced dispensing/dosing pump systems to your specific production requirements. For personalized system recommendations suited to your application and material selection, reach out to our experts today!

Maximize Your Savings with Zenith's Precision Metering Pumps:

- ✓ Seal-less: Magdrive option on 9000 series
- ✓ Hardened Materials of Construction options for Abrasive Applications
- ✓ Complete Packaged Systems: Controllers, Mounting Carts, Instrumentation
- ✓ Manufactured, Engineering and Service Support in USA!
