ALLWEILER EMERGENCY PUMPS

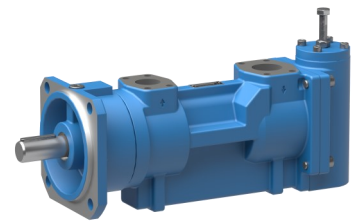

Three-Screw Pumps

Ensure operational reliability in emergencies with our immediately available three-screw pumps. These pumps are customized for you and can be shipped within **2 working days**. This ensures a reliable solution exactly when you need it most.

We are also happy to review other series for accelerated lead times.

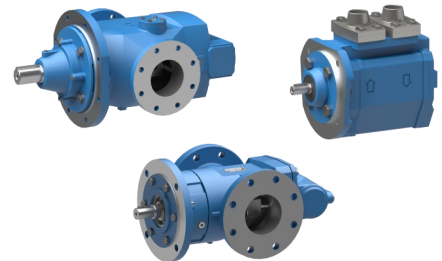

ALLWEILER TRILUB® Series*)

The three-screw TRILUB® pumps from Allweiler are ideal for lubrication and hydraulic applications at pressures of up to 16 bar. This technology provides uniform, low-pulsation conveying and exceptional durability compared to other pump technologies.

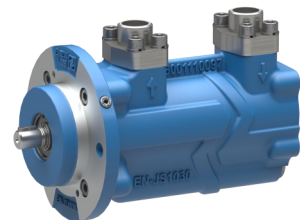

ALLWEILER IMO Low- Pressure Product Line Pumps ACG, ACF, ACE *)

The IMO low-pressure product line combines technical refinement with practical accessibility, providing a pioneering solution for industrial and marine applications. Its proven pump technology ensures consistent, low-pulsation conveying and exceptional durability.

ALLWEILER ALLFUEL® Series Pump AFI *)

The second generation of the Allweiler ALLFUEL® series was specifically developed for the efficient transfer of fuels, heating oils, lubricating oils, and hydraulic oils at pressures of up to 40 bar. ALLFUEL® screw pumps are known worldwide for their reliability in marine and industrial applications.

**) Short-term availability depends on size and material version.*
